## Hotmelt Machine K1002

The Kolb K1002 hotmelt machine with slide table system is configured for medium-size production runs. Through the slide table, the injection time, dwell time and cooling time can be used for removal of parts and fitting the second tool. The K1002 hotmelt machine enables

- automatic procedures of the injection system,
- lateral movement of the injection tool to the second injection position,
- pneumatic tool lock system,
- electronic adjustment of the injection time, dwell time, and cooling time
- and adapting of all major melting devices

### Technical Data

Power	2900 W
Molding pressure	up to 40 bar
Molding temperature	up to 250 °C
Consumption each cycle	approx. 1,5 l
Tank capacity	7 l
Electric supply	230 V and 3x 400 V, 50 Hz
Pneumatic supply	7 bar, dry and oilfree
Dimensions (Length x Width x Height)	1300 x 900 x 1500 mm
Weight	approx. 90 kg
