| ManualClean | Manual cleaning |
| | Stencil under-/flipside |

Part No. 090616-WW // Container 150 Tissues

Part No.

Made in Germany

Part No.

***++ = ideal for application, + = recommended, o = usable but not recommended, - = not recommended**
Note: The spreadsheet only shows a general overview of the cleaning media specifications. Rinsing with tap water with a too high lime concentration may cause lime residues after drying. Cleaning tests are reasonable and necessary to determine the optimum cleaner configuration. Such tests may be carried out directly at the **kolb** Demonstration Center in Willich / Germany or can be initiated by contacting one of our international subsidiaries.
